rimmosman@gmail.com | LinkedIn/Rim-Osman | Portfolio Website

PROFESSIONAL SUMMARY

Business Analyst with 3+ years of experience in banking, regulatory reporting, and business intelligence. Skilled in SQL, Power BI, and requirements analysis, with hands-on experience supporting regulatory reporting, and Agile delivery. Passionate about transforming data into actionable insights that improve business processes and support decision-making.

CORE SKILLS

Analytics & BI: SQL | Power BI | Tableau | Excel | Python
Business Analytics: Requirements Gathering | User Stories | Agile (Scrum) | JIRA | Confluence
Banking & Regulatory: Regulatory Reporting | KYC | FATCA | CRS | ESG Reporting | AIFMD | Solvency II

WORK EXPERIENCE

Business Analyst | **Keiken Digital Solutions**, Paris, France | **January 2024 - January 2026**

- Managed product backlog for SMART CV, translating 50 business requirements into user stories and functional specifications
- Collaborated in SAFe Scrum team environment to deliver features reducing delivery cycle time by 20%
- Contributed across SDLC phases, accelerating MVP delivery and improving requirement clarity for development teams
- Performed testing using JIRA/Xray, improving product usability and reducing defects through iterative feedback

Regulatory Data Analyst | **Omega Financial Solutions**, Paris, France | **April 2023 - August 2024**

- Delivered 10+ regulatory reports (Solvency II, ENS FR05), reducing reporting errors by 15%
- Conducted AIFMD regulatory gap analysis in line with ESMA technical standards to ensure regulatory compliance
- Prepared ESG/SFDR reports covering 18+ sustainability indicators to support regulatory disclosures
- Analyzed insurance reporting templates for AGPM Group, identifying data gaps and improving data completeness by 20%

Customer Service Representative | **Fransabank,** Beirut, Lebanon | **May 2018 - August 2018**

- Supported customer onboarding and account opening processes while ensuring documentation accuracy
- Processed banking transactions and maintained high standards of customer service
- Collaborated with branch teams to ensure compliance with operational procedures and data accuracy

Assistant Compliance Officer | **Blom Bank**, Beirut, Lebanon | **November 2016 - September 2017**

- Reviewed and validated KYC documentation in accordance with FATCA and CRS regulations
- Assisted in client risk profiling and compliance checks
- Ensured data accuracy and completeness to support regulatory compliance and audit readiness

PROJECTS

Data Professionals Survey Dashboard (Power BI)

- Built interactive dashboard using Power BI to analyze salary trends and job roles from a survey of 630+ data professionals
- Defined and analyzed key performance indicators (KPIs) including average salary, salary satisfaction, and work-life balance scores
- Used Power Query and DAX to clean, transform, and visualize survey data
- Provided insights on salary gaps by role and region and identified Python as the most preferred programming language

Global Layoffs Analysis (SQL)

- Analyzed 2,300+ records using SQL to identify global layoff trends and impacted sectors
- Developed optimized SQL queries using joins, CTEs, aggregations, and window functions to uncover global workforce reduction trends
